Our landscape and garden ...

- Encourages relaxation, while spending time in it, and while viewing the garden from many perspectives including our windows, doorways and public entry. _____

- Provides extra living area for the family through the seasons, and encourages everyone to spend time outdoors, whether entertaining, sunbathing, playing or just relaxing. _____

- Has convenient and sheltered outdoor eating and/or cooking area. _____

- Welcomes guests to our front door, providing them with them with a clear, well lit route. _____

- Incorporates the unique natural features of our property, compliments the design of our house, and is adapted to the scale and climate of our neighborhood. _____

- Adds privacy from unwanted views, while capturing distant interest and beauty. _____

- Has interest through all the seasons; even during winter's cold and dreariest weather there is something interesting and attractive. _____

- Improves the climate for the house and garden by adding shelter from excessive sun and wind, yet admits plenty of light and warmth where needed. _____

- Stands up to extremes of summer and winter without too much attention. _____

- Provides access to our entire property, and has useful space for storage of garden equipment, toys, firewood, outdoor furniture and other service needs. _____

- Has a discreet place for laundry drying, extra car parking, and seasonal gardening. _____

- Includes safe play areas for children, easily monitored from inside. _____

- Lights up at night, so the garden's beauty can be appreciated during the evening hours, improving security. _____

- Includes low maintenance features, so that time outdoors can be spent enjoying ourselves. _____

- Has a place for our favorite outdoor hobby and activity. _____
